

Interactive Unity Developer

We are seeking an experienced Unity developer to join our growing Interactive team. The position would be responsible for creating and maintaining Unity based application for our clients. A successful candidate must be able to adapt and extend their knowledge as projects dictate, as well as work effectively individually and as part of a team.

A lot of what we do at Wild Blue involves translating complex, multiple-component messages into simple, understandable narratives. So, in addition to your technical skills, you'll need the ability to quickly understand our clients' markets and challenges, be comfortable presenting to clients and upper management when required and be willing to collaborate across departments. Finally, you'll have to be down with a relaxed dress code, pizza and playing some ping-pong when you've got a spare minute.

Skills & Requirements

We are interested in speaking to you if...

You:

- are comfortable building Unity based applications with little direction.
- are a team player who is inspired by your colleagues & inspires others with your vision & skills.
- are highly motivated with an entrepreneurial mindset and adhere to tight deadlines.
- are highly productive, rarely bored and never wait around for things to happen.
- listen, synthesize and reflect as much as stating your own opinion.
- actively explore emerging technologies and stay up-to-date on the latest technology.

"Must have" experience in:

- 2+ years working with Unity
- 2+ years working with C#
- Familiar with 3D scene optimizations
- Collaborating with teams of developers and designers and presenting to clients.
- Use Git on a regular basis

Ideal candidates would have some experience in the following:

- Experience building Unity applications that were not games
- Experience building/maintaining databases
- Experience working on VR Applications
- Worked with web-based APIs within a Unity application

We'd love to tell you more about our benefits and perks!

How do I apply?

Submit the following to Wild Blue's Human Resource Director, Carrie Mueller: Carriem@wildbluetech.com

1. Cover Letter introducing yourself and expressing why this position is a fit for you. We also want to know what makes you tick. What are you seeking?
2. Resume.
3. Sample work preferred, but not required.
