

Custom Build Specialist

We are seeking an experienced custom build craftsman to join our build production team. The position would be responsible for taking our unique design concepts and successfully being able to build custom displays or custom pieces for retail, trade shows, museums, product prototypes, or anything our clients may want or request. Our expert Custom Build Specialists work together with our Planning Engineers to figure out the best possible way to make what may seem impossible, possible and bring it to physical form.

Skills & Requirements

We are interested in speaking to you if...

You:

- are positive and upbeat.
- are constantly moving.
- enjoy building, creating and constructing.
- enjoy working alongside colleagues and are a contributing team member.
- efficiently work independently on projects within a tight time line.
- accept criticism and have a positive attitude.
- are flexible and willing to put in additional time, work nights, weekends when needed.
- are proactive and dislike boredom.
- pay attention to detail and expect high quality.
- have the ability to work in very close tolerances and have a keen sense for detail.
- work well in a fast-paced environment.
- comfortable working in a production environment; it is noisy and dusty at times.
- can easily manage multiple projects at once.
- have excellent communication skills.
- are creative and imaginative.
- are organized and self-motivated.

"Must have" experience in:

- Associates Degree or equivalent work experience; 3D Arts, Woodworking, Prototyping or related fields.
- Minimum of 3-5 years' experience finish carpentry, custom builds and/or custom cabinet builds (craftsman).
- Must have a clean driving record and valid driver's license.
- Must be fluent with various build materials.
- Ability to lift up to 50 lbs. and be on your feet all day.
- Ability to work mandatory overtime when workload and project deadlines dictate (sporadic weekends).
- Must be able to collaborate alongside colleagues and external consultants professionally and efficiently.
- Must be open to occasional travel to assist in occasional installs, both local and/or overnight.
- Forklift certification preferred.
- Strong math skills and the ability to read and understand ruler and measurement.
- Basic computer skills (email, web browser).

Ideal Candidate has experience in complicated custom build plans.

How do I apply?

Submit the following to Wild Blue's Human Resource Director, Carrie Mueller: Carriem@wildbluetech.com

1. Cover Letter introducing yourself and expressing why this position is a fit for you. We also want to know what makes you tick. What are you seeking?
2. Resume.
3. Samples or portfolio of custom build work.
